Ideation Phase
Empathize & Discover

Date	20 JANUARY 2024
Team ID	612000
Project Name	Project – MENTAL HEALTH ILLNESS PREDICTION USING MACHINE LEARNING.
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.
